■ 展会概况 | Exhibition Overview

随着全球航空业持续复苏，中国航空市场潜力加速释放，MRO与航材供应链的战略价值日益凸显。据相关数据预测，中国将成为全球最大单一航空售后服务市场，规模从2025年248亿美元增至2044年638亿美元；国内航空维修市场预计2028年达1500亿元，年均增长约15%。中国民航机队正处于“增量扩张+存量老化”叠加期，截至2023年底达4270架。C919交付及未来20年近万架新增客机需求，打开了全生命周期服务空间。与此同时，供应链自主化程度低、适航壁垒高、高端依赖进口、人才短缺、数字化不足等挑战突出，待料停场损失巨大，数字化、智能化、绿色化转型势在必行。上海作为国际航空枢纽，产业基础雄厚、开放优势显著。MRO CHINA自2015年创办以来，历经十届积淀，累计展出超五万平方米，汇聚40多国数千家供应商，获中航工业、商飞、空客、波音、国航、东航等鼎力支持。第十届展会将聚焦“国产化替代、供应链安全、数字化转型”，打造亚太最具影响力的MRO与航材供应链专业采购盛会，集技术展示、供需对接、行业智库、国际合作于一体，以更高站位回应行业迫切需求。

As the global aviation industry continues to recover, China's aviation market is entering a new phase of growth, reinforcing the strategic importance of MRO capabilities and the aviation materials supply chain. According to industry forecasts, China is expected to emerge as the world's largest commercial aviation aftermarket, with market value projected to increase from USD 24.8 billion in 2025 to USD 63.8 billion by 2044. China's domestic aviation MRO market is expected to reach RMB 150 billion by 2028, with an average annual growth rate of approximately 15%. Meanwhile, China's civil aviation fleet is entering a phase of simultaneous fleet expansion and aging, with the fleet reaching 4,270 aircraft by the end of 2023. The delivery of the C919 and demand for nearly 10,000 new aircraft over the next two decades are creating significant opportunities across the full aircraft lifecycle services market. Meanwhile, the industry continues to face structural challenges, including limited supply chain localization, high airworthiness certification barriers, dependence on imported high-value components, skilled workforce shortages, and gaps in digital capabilities. Parts shortages can result in costly aircraft-on-ground (AOG) events, making digitalization, intelligent MRO, and sustainability critical priorities for the industry. As a major international aviation hub, Shanghai boasts a strong industrial base and extensive global connectivity. Since its launch in 2015, MRO CHINA has grown through ten successful editions, on the basis of thousands of suppliers from more than 40 countries, with a cumulative exhibition area exceeding 50,000 sqm. The event has received strong support from leading industry players, including AVIC, COMAC, Airbus, Boeing, Air China, and China Eastern Airlines. Focusing on localization, supply chain resilience, and digital transformation, MRO CHINA 2027 aims to establish one of Asia-Pacific's most influential sourcing events dedicated to MRO and the aviation materials supply chain, providing an integrated platform for technology showcases, business matchmaking, industry insights, and international collaboration to address the industry's most pressing needs.

■ 新的机遇 | New Opportunities

当全球航空业迈入新一轮增长周期，MRO与航材供应链正成为重塑产业价值的关键赛道。为全球航空维修领域MRO企业搭建信息对接与技术交流的国际合作平台，推动世界航空维修与工程服务行业高质量发展，高登会展集团联合相关行业主管机构定于2027年7月7日-9日在上海新国际博览中心继续召开“2027第十届上海国际MRO与航材供应链展览会”。展会以“链接全球·共筑航空供应链新生态”为主题，展品覆盖MRO服务、发动机、航电、数字化、航材贸易等全产业链，聚焦国产化替代、供应链安全与数字化、智能化、绿色化转型。展会将服务国家战略，推动国产大飞机维修保障体系建设，打通全链条协同，促进供需精准对接，深化国际合作，助力中国MRO提升国际竞争力。同时，汇聚全球航空维修、OEM、航空公司、租赁商、分销商及投资机构，打造国际化、专业化、高水平产业合作平台。

As the global aviation industry enters a new growth cycle, MRO and the aviation materials supply chain are emerging as key drivers of industry transformation and value creation. To provide an international platform for business matchmaking, technical exchange and global collaboration across the aviation MRO sector, and to advance the high-quality development of the global aviation maintenance and engineering industry, Golden Group, together with relevant industry authorities, will host the 10th Shanghai International MRO and Aviation Materials Supply Chain Exhibition from July 7 to 9, 2027 at the Shanghai New International Expo Centre (SNIEC). Taking "Connecting the World, Building a New Aviation Supply Chain Ecosystem" as its theme, the exhibits cover the entire aviation MRO value chain, including MRO services, engines, avionics, digital solutions, and aircraft materials trading, with a focus on localization, supply chain resilience, and the industry's transition toward digitalization, intelligent technologies, and sustainability. Meanwhile, the exhibition will support the development of China's MRO ecosystem for domestically manufactured aircraft, strengthen value-chain collaboration, connect buyers with suppliers, and expand international partnerships to enhance the global competitiveness of China's MRO industry. It will attract MRO providers, OEMs, airlines, lessors, distributors and investors worldwide to attend the exhibition, serving as a premier platform for global aviation MRO collaboration.
